Introduction

Investments in the State of Texas are governed by Section 2256 of the Government Code. All investments made by the District shall comply with the Public Funds Investment Act and all federal, state, and local statutes and regulations.

1. Investment policies should include the methods used to monitor the market price.
2. Policy wording should include a statement that transactions must be settled on a delivery versus payment basis with the exception of investment pools and mutual funds.
3. The Board of Trustees must act upon an annual review of the District's investment policy and strategies.
4. Ten hours of training is required every two years of the chief financial officer and investment officers.
5. A qualified representative of sellers of investments must sign that the District's investment policies have been reviewed.
6. The Board of Trustees must review and adopt a list of the brokers used.
7. Quarterly investment reports must be in accordance with generally accepted accounting principles and must include accrued interest.
8. A formal annual review of the quarterly reports by an independent auditor is necessary except for investments in pools, money market mutual funds or depository bank investments.

The District's investment policy is CDA. The policy requires an annual reporting of investment activity.

The District's policy must primarily emphasize safety of principal, liquidity, and diversity. Investments are made in a manner that ensures the preservation of capital in the overall portfolio. The District's investments are sufficiently liquid to meet anticipated cash flow needs. Investments are diversified to reduce the risk of any one investment type. Internal controls exist to protect against losses of public funds arising from fraud, employee error, and misrepresentation by a third party.

Investment strategy is applied to each major fund type. Primary objectives for operating funds are safety, investment liquidity and maturity sufficient to meet anticipated cash flow requirements. The Debt Service fund and Capital Projects funds may have longer thresholds for investing due to the nature of the cash flow requirements.

Introduction

For the 2009-2010 school year, the Rockwall ISD investment policy limited any investment to nine types:

1. Obligations of the United States or Texas or its agencies and instrumentalities and political subdivisions permitted by Government Code 2256.009.
2. Certificates of deposit permitted by Government Code 2256.010.
3. Fully collateralized repurchase agreements permitted by Government Code 2256.011.
4. A securities lending program as permitted by Government Code 2256.0115.
5. Banker's acceptances as permitted by Government Code 2256.012.
6. Commercial paper as permitted by Government Code 2256.013.
7. No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014.
8. A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015.
9. Public funds investment pools as permitted by Government Code 2256.016.

Rockwall ISD investments during the 2009-2010 school year were spread primarily among three public funds investment pools: Lone Star Investment Pool, TexasTERM Local Government Investment Pool, and Texas Cooperative Liquid Assets Securities System Trust.

Day to day investments are monitored by the Executive Director of Finance. The Chief Financial Officer oversees the investment function of the District and presents monthly reports to the Board of Trustees. The Chief Financial Officer and the Executive Director of Finance have maintained the appropriate training requirements.

Copies of CDA (Legal) and CDA (Local) can be found beginning on page 24. No changes are recommended to these policies at this time.

Portfolio Composition

As of June 30, 2010, the District's portfolio was comprised of three different investment pools:

Lone Star Investment Pool

The Lone Star Investment Pool is an investment pool available to governmental entities. The pool was established under the guidance of the Texas Public Funds Investment Act. A board of directors made up of members of the pool is responsible for the overall operation of the pool. The Board has employed various third party organizations to assist in the operations. These third parties are as follows—
Investment Managers: American Beacon Advisors and BNY Mellon Cash Investment Strategies; Investment Consultant: CAPTRUST Financial Advisors; Custodian: Bank of New York Mellon; Administrator: First Public.

Each Lone Star fund has earned Standard and Poor's highest rating—AAA. This rating allows the pool to meet the standards required by the Texas Public Funds Investment Act.

Lone Star Corporate Overnight Plus Fund

The Corporate Overnight Plus Fund has the authority to invest in all securities authorized under the Investment Act. It seeks to maintain a net asset value of fifty cents and its dollar-weighted average maturity of 120 days or fewer. It is the Board's policy to have the following restrictions:

- The Corporate Overnight Plus Fund shall not invest its assets in any one nongovernmental issuer in an amount that exceeds five percent of the total fund assets at cost.

Lone Star Corporate Overnight Fund

The Corporate Overnight Fund has the authority to invest in all securities authorized under the Investment Act. It seeks to maintain a net asset value of one dollar and its dollar-weighted average maturity of 60 days or fewer. It is the Board's policy to have the following restrictions:

- The Corporate Overnight Fund shall not invest its assets in any one nongovernmental issuer in an amount that exceeds five percent of the total fund assets at cost.

Lone Star Investment Pool—Continued

Lone Star Government Overnight Fund

The Government Overnight Fund provides participating government entities with safety of principal, daily liquidity, and the highest possible rate of return. It seeks to maintain a net asset value of one dollar and its dollar-weighted average maturity of 60 days or fewer. This pool has the authority to invest in all securities authorized under the Investment Act. However, only the following securities investments are eligible as Government Overnight fund investments:

- Obligations of the United States or its agencies and instrumentalities,
- Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the United States or its agencies and instrumentalities.
- Fully collateralized repurchase agreements secured by obligations of the United States or its agencies and instrumentalities.
- No-load money market mutual funds regulated by the SEC provided the fund shall not invest its funds in any one money market mutual fund in an amount that exceeds 10 percent of the total assets of such money market mutual fund.

TexasTERM Local Government Investment Pool

TexasTERM Local Government Investment Pool (TexasTERM) has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code (PFIA). TexasTERM offers a series of professionally managed portfolios that are available to municipalities, counties, school districts, special districts and other governmental entities in the State of Texas.

An Advisory Board is responsible for the overall management of TexasTERM. With respect to TexasTERM, the Advisory Board's responsibilities include formulation and implementation of its investment and operating policies. The Advisory Board selects and oversees the activities of the Investment Advisor/Administrator and the Custodian for TexasTERM and monitors TexasTERM investment performance and the method of valuing its shares.

Portfolio Composition

TexasTERM Local Government Investment Pool—Continued

The Investment Advisor and Administrator for TexasTERM is PFM Asset Management LLC. The Custodian for TexasTERM is U.S. Bank, N.A.

Its portfolios may contain a combination of:

- Obligations of the United States or its agencies and instrumentalities.
- Repurchase agreements with Primary Dealers.
- Certificates of Deposit (CDs) that are FDIC insured and fully collateralized according to Texas law.
- Money Market Mutual Funds rated AAA or equivalent.

The Texas TERM Local Government Investment Pool offers four distinct investment portfolios allowing flexibility to safely maximize yield and liquidity:

TexasDAILY Portfolio

- A money market variable-rate portfolio with daily liquidity rated AAAM by Standard & Poor's Rating Services.

TexasTERM Portfolio

- A fixed rate, fixed-term portfolio rated AAAs by Standard and Poor's, that enables investors to lock in a fixed rate for a term of 60 days to 365 days.

TexasTERM CP Portfolio

- A fixed rate, fixed-term portfolio investing in commercial paper with a minimum rating of A1/P1. Investors whose investment policies permit may lock in a fixed rate for a term of 60 days to 270 days.

TexasTERM Certificate of Deposit Purchase Program Portfolio

- A fixed rate, fixed-term investment option enabling investors to invest in FDIC-insured CDs from banks throughout Texas. Participants may lock in a rate for a term of 90 days to 365 days. Each CD investment is held in the name of the Participant.

Portfolio Composition

Texas Cooperative Liquid Assets Securities System Trust (Texas CLASS)

The Texas Cooperative Liquid Assets Securities System Trust (Texas CLASS), was created in 1996 as an investment pool for its participants pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code. The Texas CLASS Trust Agreement (Trust) is an agreement of indefinite term regarding the investment, reinvestment and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate (Participants), Cutwater Investor Services Corp. as Program Administrator (Program Administrator), and Wells Fargo Bank Texas, NA as Custodian (Custodian).

Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian and the Program Administrator. The Board administers the affairs of the Trust. It also selects the consultants for Texas CLASS, including the Program Administrator and the Custodian.

The Board of Trustees has appointed an Advisory Board composed of Participants and other persons who do not have a business relationship with the Trust and are qualified to advise the Trust. The Advisory Board provides advice to the Board of Trustees and the Program Administrator about the Investment Policy and Investment Strategy of the Trust and about other matters as requested by the Board of Trustees and the Program Administrator.

The Fund is rated AAAM by Standard & Poor's Ratings Services. This rating is the highest assigned to principal stability government investment pools by Standard & Poor's.

Texas CLASS' portfolio may contain a combination of:

- U.S. Treasury Bills, Notes and Bonds
- Obligations of or guaranteed by United States Government Agencies and Instrumentalities
- State and local government obligations
- Repurchase Agreements with Primary Dealers
- Certificates of Deposit (CDs) of a state or national Bank domiciled in the State of Texas that are guaranteed or FDIC insured
- Mutual Funds
- Highly rated commercial paper
- Guaranteed Investment Contracts (Bond Proceeds Only)

Rockwall ISD's Investments by Pool

For the 2009-2010 school year, Rockwall ISD invested bond funds primarily with Texas CLASS. The rates for Texas CLASS have averaged slightly higher than the other two investments pools. Repurchase agreements, U.S. Treasury securities, U.S. government agencies, certificates of deposit, and money market funds are among Texas CLASS's portfolio. Therefore, this strategy is consistent with the Board's emphasis on diversity.

Source: Federal Reserve Board as reported by MoneyCafe.com

NOTE: The One Year Constant Maturity Treasury Rate (CMT) is an average yield on United States Treasury securities adjusted to a constant maturity of 1 year, as made available by the Federal Reserve Board. Yields are interpolated by the United States Treasury from the daily yield curve. This curve, which relates the yield on a security to its time to maturity, is based on the closing market bid yields on actively traded Treasury securities in the over-the-counter market and is updated after the Federal Reserve releases its data on the first Monday of each month.

Investment Earnings by Fund

The chart below shows a decrease of 92% from 2008-2009 investment earnings. There are several reasons for this significant decrease including the following: the economic recession which depressed investment rates, the completion of a significant amount of capital projects, and a change in the fiscal year which resulted in a 10-month presentation for the 2009-2010 fiscal year.

Fund Name	2008-2009 Interest	2009-2010 Interest

Recommendations

1. The District's primary investment strategy for 2009-2010 was to invest in investment pools. Historically, interest rates on the 1-year CMT are lower than the investment pools. However, while this year there were months where the CMT spiked to 0.25% above the pools; the difference is not significant enough to change the investment strategy. For the fiscal year 2010-2011 we would recommend continuing our 2009-2010 investment strategy including concentrating our funds in the investment pools, monitoring market information, interest rates, forecasted and actual cash flows, and managing every fund in the portfolio on an individual, consistent, and frequent basis. Investment Officers must evaluate the market on an ongoing basis to determine where the District's funds are best utilized in the existing market. Monitoring changes in the District's cash flow forecast will also be important in the coming year. The effective and efficient management of the portfolio can ensure a reasonable yield on the portfolio without exposing the District to unacceptable levels of risk. When appropriate, the District will place funds on a delivery vs. paid method in US Government Securities or in top grade commercial paper through an approved broker.
2. The District currently utilizes the expertise of the following major investment brokers. The District staff will make investment decisions for government securities and commercial paper based on competitive pricing. We recommend the Board of Trustees review and adopt this list of qualified brokers that are authorized to engage in investment transactions with the District.

 - Texas Cooperative Liquid Assets Securities System Trust
 - TexasTERM Local Government Investment Pool
 - Merrill Lynch
 - Morgan Stanley
 - Citigroup Global Markets, Inc.

Recommendations

3. Government Code, Chapter 2256 requires investment officers to receive instruction relating to investment responsibilities under the Public Funds Investment Act from an independent source approved by the Board or a designated investment committee advising the investment officer, as provided for in the District's investment policy. We recommend the following providers for investment training:
 - Texas Association of School Administrators (TASA)
 - Texas Association of School Boards (TASB)
 - Texas Association of School Business Officials (TASBO) and its local affiliates
 - Texas Comptroller of Public Accounts
 - Texas State Society of Certified Public Accountants and its approved providers
 - Regional Education Service Centers including Region 10 and Region 7
